Salah Menchari

Full Stack PHP Developer

Ariana Ville, Ariana

PROFILE

Full stack developer with 8 years of experience building web applications for Tunisian SMEs and international clients.

I build products that are *simple, fast and maintainable*:

- business applications in PHP 8 and PostgreSQL;
- mobile first interfaces with Tailwind CSS and Alpine.js;
- secure, documented REST APIs.

Comfortable working alone or in a team, I also help teams with their technical choices.

PROFESSIONAL EXPERIENCE

Lead web developer

March 2022 – Present

Digital Sfax Solutions · Sfax

Technical lead of a team of 5 developers.
Introduced code reviews, continuous integration and PSR-12 standards.

> **Migration to PostgreSQL** — Zero-downtime migration of a 40 GB MySQL database to PostgreSQL.

> **Online booking platform** — Designed a multi-venue platform: 12,000 bookings per month, response time divided by three.

PHP developer

January 2019 – February 2022

Agence Web Carthage · Tunis

Built custom websites and online shops for about twenty clients.
Integrated online payments and SMS gateways.

> **Handicraft online shop** — Catalogue of 800 products, card payment and home delivery across the country.

Junior web developer

September 2017 – December 2018

Startup Medina Labs · Sousse

Maintained Laravel applications and built responsive interfaces.
